## CAREER OBJECTIVE

Developer with a strong interest in UI/UX Design

---

## PROFESSIONAL EXPERIENCE

### Application Developer/ UI – UX Developer

Discover Home Loans, CA

August 2013 – Present

- Worked with Pricing team on a mission to automate a user locking, unlocking, re-locking, re-working, adjusting and extending a loan and hence have a comparative advantage over competitors
- Created modern user interfaces allowing a better user experience with the help of Blend and Snoop
- Created a uniform set of styles, templates and custom controls(i.e. MessageBox) for the SOL(in-house loan origination) application

### Student Intern, Developer – Innovation Incubator Group

Verizon, TX

June 2013 – August 2013

- Designed an in-house Verizon Android theme for Android Applications
- Redesigned the front-end, back-end and added new features to an in-house Verizon team collaboration web application using modern and popular technologies

### Student Intern – Program Management and Software Platform R&D

Invensys Operation Management, CA

January 2013 – June 2013

- Created a web application that used Team Foundation Server API to query work items
- Planning of PSIs and Sprint was expedited by half of a day by allowing users to skip many tedious details when planning using TFS and as a result helped to visualize the work distributed in each PSI and Sprint

## PROJECTS

- Clima(2014) – Simple Weather Application to not just read the weather but instead feel the weather
